## ABOUT **COMPANY**

Somex Ceramics. A company that was born out a simple wish...regal the senses by crafting exclusive sanitary ware.

Today, that wish has turned into a success story, the likes of which even the promoters did not dream of Somex has been finding and retaining customers and admirers in almost every part of india through a large number of retail outlets. Sales have been showing appreciable jumps every year.

Somex has the most extensive sanitary ware range in the country. Its one piece range is among the finest and the largest.

The company also has a stunning array of its very popular white sanitary ware, a showcase of which is presented in this catalogue.

Sri Lanka, Mauritius, Bangladesh, Kenya, Bahrain, Nepal, Cameroon and Maldives. These are some countries that have shown an interest in Somex Sanitary ware.

Somex's overall excellence in product, performance and delivery have won, besides customers, important awards in the industries.

Secured the ISI quality hallmark for selected of its products.

## PRODUCTION & QUALITY

### Raw material

To make finest sanitary ware products it requires a quality and standard inspection of raw materials. We have made a standard quality bench mark to use raw material for making our finest iconic products.

With challenges in modern design we ensure that all raw material must go through complete quality procedure so it gives foundation of an excellent product. This brings out the true essence of sanitary ware products.

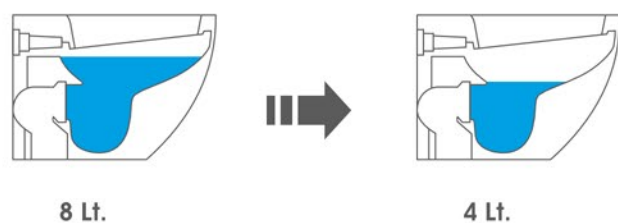

### Quality procedures

In our production line our crafters follow all the quality procedure to ensure that our product becomes the center of attraction. With certain quality criteria our products are one of the best & preferred in the market.

A quality process with visual reference that contain the trace of craft and shape to memorize the iconic Sanitary ware products and reinvent the theme of bath space design.

The right kind of quality service that's differentiate us from others Let our quality products exceed your expectations.

## WATER SAVING

### Can we save water in your bathrooms ?

Water is a precious element of life. Our aim is to get maximum cleaning with less water. In our new research & development we successfully use less water that give more cleanness in our sanitary ware product.

With this development we can save maximum water for future generation.

## The ultimate rimless technology for your bathroom

X-clusive Sanitarywares

A rimless toilet made for significantly easier cleaning and a clear improvement in hygiene. There is no build-up of bacteria and no possibility for lime scale to lurk. The rimless technology ensures quintessential hygiene with effective flushing that offers an efficient solution ensuring that the entire inner surface is rinsed throughout the flushing process.

## EASY TO CLEAN

-  Glazed Siphon
-  More Silent
-  Soft Close

**Maintenance**

- Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.
- Wash Basin
  - A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.
- Closets
  - Cleanser like Harpic can be used to clear the closet with soft plastic brush, at least once a day.
  - To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.
  - Keep the toilet brush handy in a convenient stand nearby.
  - In case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains / marks can be removed with the help of a solution of dilute hydrochloric acid.
  - Clean with a soft cotton cloth and warm water with soap.
  - Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.
  - Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.

## > INSTALLATION INSTRUCTIONS

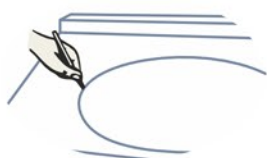

### WALL HUNG BASIN

As shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

### COUNTER WASHBASIN

#### At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

### MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, Sealant, Sharp Knife or Scissors.

### COUNTER WASHBASIN

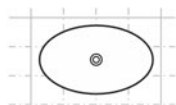

#### At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

### INSTALLATION OF LAVATORY

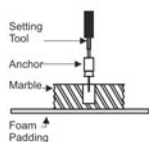

Please Note: Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top as directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot hole on the inside of the cut line.

#### For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

#### For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

#### For All Installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacturer's instructions.
4. Install the drain to the lavatory according to the manufacturer's instructions.
